WM. F. JONES, JUDGE.

Three men were charged with being drunk and disorderly on the platform at the Grand Trunk station at South Paris, Sunday evening. The first man called was Frank West, who pleaded "not guilty." John Frazier of Auburn testified that he was on the train and saw West, who was not, in his opinion, intoxicated. John A. Titus, deputy sheriff, testified that West was taken off the train and given to him and was taken to the county jail, and that he was not so badly intoxicated but that he could walk all right. William M. Teasdale, a detective in the employ of the Grand Trunk, said the man was in a fight with another man on the train and had to be held in a seat all the way down from Bryant Pond, and appeared to be drunk. Another Grand Trunk man, Miller, said West appeared drunk on the train. West added that he was not taken off the train, that he was going to get off the train in South Paris, as he lived in Norway. Judge Jones discharged him after giving some advice not to make any disturbance on the trains again.

Charles Henderson, who gave his residence as Lewiston, was the next man called. He was also charged with being drunk and disorderly at the Grand Trunk station. He pleaded guilty and was fined \$5 and costs, or 30 days in jail. Peter Cronin also pleaded guilty and was given a similar fine. They both said they would pay as soon as they could get word, and the money from the train. They both were committed until payment is made.

Stone-Stearns.

A pretty out of doors wedding occurred Thursday evening, Aug. 7th, on the lawn of the home of the bride's mother, Mrs. Ellen R. Stearns, which is the residence of her brother, Hon. A. J. Stearns, on Orchard street.

Carl E. Stone and Josephine Barker Stearns were united in marriage by Rev. R. J. Bruce of the Congregational church, the single ring service being used.

The lawn was prettily and tastefully decorated with electric lights and lanterns, cut and potted flowers and ferns, and the house also had a profusion of flowers prettily arranged.

The wedding march was played by Maude Pike. The wedding party came down the white carpeted way: Rev. R. J. Bruce; the groom, Mr. Stone and best man, Dr. James Sturtevant; of Dixfield, the flower girl, Alice and Elizabeth Bartlett, nieces of the bride; the bridesmaids, Florence A. Rideout and Jennie Mann, gowned in white and carrying pink carnations; the maid of honor, Donna Yeaton, of Belgrade, pink roses; the bride, Miss Stearns, and her brother, A. J. Stearns, who gave away the bride. The bride's gown was of white charmeuse with trimmings of shadow lace and pearls. The bride veil was caught with pearls. The bride's bouquet was of white roses.

The bridal couple stood under an arch of green from the woodland. Miss Pike sang "Wide, Wide World."

In the receiving line for the reception were the bride and groom, Mr. and Mrs. F. P. Stone, Mr. and Mrs. A. J. Stearns and Mrs. Ellen R. Stearns.

After the ceremony a collation was served on the lawn where small tables had been arranged. Colored lights were turned on and amid the decorations, the overhanging trees and the movement of the guests it was a pleasant scene.

The punch table was presided over by Frances Bartlett of Stonham and Elith Rideout of Norway. The refreshment table was in charge of Elizabeth Foss, Anne Gibson and Mildred Holmes, all of Norway. The wedding cake was out by the bride.

The guest book was in charge of Helen Holmes.

Mrs. Stone graduated from the Norway High school in 1908 and from Bates College in 1912. Since graduating she has been preceptor at the Leavitt Institute. She is the daughter of the late Hon. J. F. Stearns of Lovell, and since her father's death she and her mother have lived at their son's and brother's home in Norway.

Mr. Stone graduated from Bowdoin College in the class of 1909. He has since graduated from the Chirurgical College at Philadelphia, Pa. At the present time he holds the position of assistant chemist at the Van Camp Co. of Indianapolis, Ind. Besides being a chemist he is also an experienced druggist.

They left for parts unknown, but after Sept. 1st will be at home at 2944 Lawrence street, Indianapolis, Ind.

The many and beautiful presents consisted of cut glass, silver, hand-painted china, pictures, linen and gold coin.

The out-of-town guests included Mr. and Mrs. F. H. Barker, Ebensburg, Pa.; Dr. Olin Barker, Johnston, Pa.; Mr. and Mrs. A. E. Stearns, Rumford; Mr. and Mrs. E. T. Stearns, Mr. and Mrs. F. W. Brown, Alice Stearns, Center Lovell; Mrs. F. W. Dallinger, Cambridge, Mass.; Mr. and Mrs. G. W. Walker, Lovell; Mr. and Mrs. C. L. Bartlett, Frances Bartlett, Elith Bartlett, Mr. and Mrs. V. E. The bride and groom made their escape immediately. Much merriment was caused by the clever trick that enabled them to do so. The best man and maid of honor, in the guise of bride and groom, entered an auto and were whisked away in a shower of confetti while the real couple made their escape by another way.

Well Deserved

The Praise that Comes From Thankful Norway People.

One kidney remedy has known merit. Norway people rely upon it.

That remedy is Doan's Kidney Pills.

Norway testimony proves it reliable.

W. O. Needham, retired farmer, Main St., Norway, Me., says: "Doan's Kidney Pills are the only kidney medicine I use, and they always give me relief. Sometimes when I caught cold my kidneys were weakened. Several years ago I heard about Doan's Kidney Pills and I began using them. They got my kidneys working right, and when that was done, the uric poison in my system was removed. I procured Doan's Kidney Pills at Stone's Drug Store, and I know that they can be relied on."

If your back aches—if your kidneys bother you, don't simply ask for kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Needham had—the remedy backed by home testimony. 500 all stores. Foster Milburn Co., Props., Buffalo, N. Y. 32-33

W. S. PIERCE, 10 Marston St., Norway, Me.

Doctors Said He Had Dropsy. Some time ago I had an attack of dropsy which finally settled in my kidneys and bladder. I doctored with the doctors and they claimed I had dropsy. I tried other remedies and got no relief from any of them. My condition was such that I was unable to work for about two months, and the annoying symptoms caused me a great deal of trouble and pain. I was hardly able to turn over in bed. Seeing one of your Almanacs, I decided to give Dr. Kilmer's Swamp-Root a trial and after taking several bottles was able to resume my work again. I cannot say too much in praise of your Swamp-Root as the results in my case were truly wonderful.

Yours very truly, ROBERT BALLARD, Mansfield, Pa.

Sworn and subscribed before me, this 7th day of May, 1912. RAY C. LONGBOOTH, Notary Public.

The Critic.

My father says the paper that he reads ain't put up right.

He finds a lot of fault, he does, percusin' it at night.

He says there ain't a single thing in it worth while to read.

And that it doesn't print the kind of stuff the people need.

He tosses it aside and says it's strictly "on the bum."

But you ought to hear him holler when the paper doesn't come.

He reads about the parties and he snorts like a steam locomotive.

He says of information it don't contain a crumb.

But you ought to hear him holler when the paper doesn't come.

He's always late to grab it, and he reads it and he don't miss an item or want ad—that is true.

He says: "They don't know what we want, them darn newspaper guys."

I'm going to take a day some time and go and see 'em.

It sometimes seems as though they must be reading the social doings with a most derisive shrug.

But you ought to hear him holler when the paper doesn't come.

Refined Vandville.

The entertainment and dance which came off the 30th and 31st of July, for the benefit of the Whitman Library, was a success if the attendance was any criterion. But that was assured before with Mrs. Freeman of Cranestown in full charge of the entertainment, who was ably assisted by Mrs. Hall of Tolebec, who had charge of the booths and Miss Kinsman of Birchmeir directing the musical part of the program.

The children were perfect in their parts and a great deal of credit must be given Miss Stanton for her thorough training of the children in the Spanish dance. The opening number, School days, was prettily staged and the setting blended with the scenery. The voices of the Misses Newell and Farnum were sweet and clear and their acting showed training. The pictures were a surprise with their electrical effect, Miss Day and Mr. Cole rendered the Swing Song admirably and the electrical effect in this act was well staged.

A la Honey Boy Evans and the four pickaninnies were a scream. Mr. Mott in his female impersonators with his clear soprano voice was equal to any professional.

In the last act which included the whole caste, the stage setting was very handsome and the water house added the real touch in his German dialect in this act.

We understand that the committee will begin to improve the Library grounds with the money from this entertainment.

Simply Wishing Will Get There.
Our little town is making progress in many ways, especially so in the last few years. Last year we put in street lights, this year we are building concrete sidewalks and the town has made marked improvement in the condition of its highways. There is one thing our town lacks, something that our town must have, something that is absolutely necessary if we are to grow and develop as we should. No one can deny that a good hotel is what is needed at present. A hotel, well managed, not too large or too small, a year around hotel and yet constructed in such manner that its capacity can be greatly enlarged through the summer season for the accommodation of our summer visitors.

One thing is certain, we can never have a hotel by simply wishing for one. We have got to get together and work together good and hard and we can have one, just as we have the street lights, sidewalks, Y. V. S. grounds, fire protection and everything else that we have really wanted enough to work for. A Food hotel would place our town on the map.

It would bring scores of summer visitors to our village which cannot find accommodations here now. It would make more trade for our merchants, a better market for our farmers, and could not fail to be a benefit to our whole town. Because we have failed once is no reason for us to forever to give up the plan.

There are few places in Maine which can rival us as a natural summer resort. We are nearest the center of the County, so situated that we could hold a good year around business. The location is all that could be desired. There let us wake up and hustle, get together, work together and get that hotel that means so much to us all. We can do it if we will. It's up to us.

Will Handle Your Fruit—Look Them Up.

We are pleased to call attention to the advertisement of the Puritan Fruit Company appearing in this issue, and to say that W. H. Emery, the President of the Company, is an Oxford County boy raised in Waterford, where he first attended school in the Temple Hill District and later in the schoolhouse now located at East Waterford.

Mr. Emery has resided in Boston for more than twenty years and has frequently spent his Summer vacations at the Lake House in Waterford, where he takes great pleasure in renewing the acquaintances of his youth.

Some years ago Mr. Emery engaged in the Orange and Grapefruit culture in Florida; and it was in connection with this business that he was lead to establish a wholesale Fruit and Produce business in Boston.

He has surrounded himself with a corps of experts who have had many years of experience in the fruit and produce market—two of whom, Lincoln Morrison of East Livermore and A. D. Simpson of Dixmont, were Maine boys. His firm seems to be remarkably well equipped to handle business of this kind, and we predict he will receive a generous patronage from this region, where he says "Childhood's Happy Days" were spent.

BETHEL.

Leonard O. Grover.

Leonard O. Grover, aged 85 years, known far and wide for many years by musicians as the proprietor of a violin manufacturing and repair shop on Union Ball, nearly every violinist of prominence years ago knew Grover as a discerning collector, marvelous maker and skilful repairer of violins. He died practically unknown, without any near relatives.

Mr. Grover was born in Bethel and for more than 60 years had resided in Boston. A liking for music came naturally to him. He made his first violin when he was 13. At the age of 17 he was a teacher in a singing school in the vicinity of his birthplace.

When 21 he went to Boston and took singing lessons from Leonard Marshall, and attained wide prominence as a member of Marshall's quartet. When an attack of diptheria cut short his singing career he gave all his attention to the violin. In a little workshop in the back room of an old fashioned house Mr. Grover shut himself in to carry on his work.

A Grover-made violin was a prized possession. He obtained his wood from the old Chaucery St. church which was built in 1632; its varnish was a preparation made by himself and the secret of its making was jealously guarded. During the last five or six years that O. Grover was in this country appearing publicly, Mr. Grover did all his work for him, and one of the old man's cherished possessions was an instrument which was made from directions given by the great violinist.

Although orders came from all parts of the world, Mr. Grover never made more than 75 violins, such was the painstaking care he used in the selection of his material and the making. Many priceless violins modeled by old masters were in his collection, as well as an extensive library of English, German, French and Italian literature on violin making.

RESOLUTIONS OF RESPECT.

On the death of Sister Etta A. Moulton who passed to a higher life June 2, 1913.

Whereas, it has pleased the Almighty to remove from our lodge by death our esteemed sister who was always interested in the welfare of our order and in the faith in God given even in the shadow of death.

Resolved, That while we mourn the death of our sister, that we have sustained the loss of a friend whose fellowship it was an honor and pleasure to enjoy, that we bear willing testimony to her many virtues, to her unquestioned and stainless life.

Resolved, That we offer to her mourning friends, over whom sorrow has hung her mantle, our heartfelt sympathy and pray that Infinite Goodness may bring relief to their burdened hearts and inspire them with the consolation that hope and faith in God gives even in the shadow of death.

Resolved, That a copy of these resolutions be spread on the records of the lodge, a copy sent to the relatives of our sister and also a copy sent to the Norway Advertiser for publication.

The Last Pipeful of Sickle Is as Fresh as the First

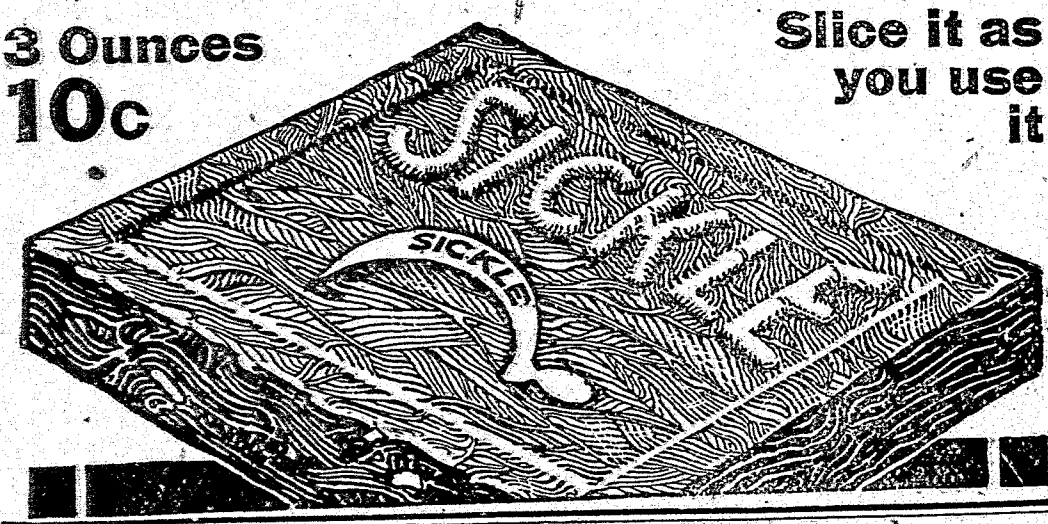

Because you slice Sickle off the plug as you use it,
and all the original flavor and moisture are pressed into
the plug and kept there by the natural leaf wrapper—so
that every piece of Sickle Plug is bound to be fresh when
it goes into your pipe. You are sure of a slow-burning,
cool, sweet smoke always.

Ground-up tobacco keeps getting drier all the time—
so dry that it clogs in the bottom of the package and has
to be dug out. No wonder it burns fast, smokes hot and
bites the tongue.

When you buy Sickle you get more tobacco—because you
don't pay for a package—and you smoke all you get, because there's
no tobacco spilled and wasted. Just try Sickle today—your dealer
sells it.

The Matter with Maine: How Remedied

Efficient Work Being Done by the Department of Agriculture to
Build up Important Interests of the State

By John A. Roberts, Maine Commissioner of Agriculture.

One of the most important interests of
this state is the live stock industry, es-
pecially the dairy side. The Depart-
ment of Agriculture at the present time
is devoting considerable effort to the
establishment of dairy test associations.
This is an organization that affords the
farmer a knowledge of the value of each
cow in his herd, and brings home to
him the fact of the exact cost of the pro-
ducts of each cow, whether in milk or
butter fat. These associations are very
important in the development of the
dairy industry. The department not
only organizes them, but aids them in
every way after they are organized.
Attention is also given to breeder's as-
sociations, of which there are many in the
State. It is believed by the department
that very much more good blooded stock
should be brought into the State.

The Dairy Inspector has charge of the
enforcement of those dairy laws—those
regarding milk, cream, butter, imitation
butter and oleo. The object of his work
is to secure a better and cleaner product
of milk in the centers of population, and
to see to it that all imitation butter is
sold for what it is.

Another department of work is that
of the prevention of contagious diseases
among animals, especially tuberculosis
among cattle and glanders among horses.
This work has been carried on in the
State for many years very successfully,
and it is fair to claim that at present
Maine is ahead of most other states in
the healthfulness of its animals.

The fruit interests in the state are in
the hands of the State Horticulturist and
his assistant, and they are aiming to
secure better cultivation and fertilization
of fruit trees in the State. A part of
their work is demonstration work in
orchards and showing methods of mix-
ing the spraying materials and their ap-
plication. They also hold schools for
grading and packing apples; and a large
part of their work is in the line of pre-
venting and overcoming diseases of apple
trees and other fruits and controlling in-
sect pests. They also assist in the form-
ing of co-operative associations designed
to secure a better grading and packing
of apples and to assist in their marketing.

Maine produces the best quality of apples
of any State in the Union. The apple
lands of the State are cheap. We are
near the market, and the opportunity is
open for Maine to successfully compete
with any other state in the Union in the
production of apples. While this law does
it will be necessary that the apples be
graded and packed in the proper way
and put upon the market in the econo-
mical manner. At the present time most
of the apples are marketed in the early
fall, soon after picking. They are rush-
ed into European markets and at once
there is a glut, and the price goes down,
and many farmers are obliged to sell at
a very low price because they are not in

a position to hold their apples. So if it
is evident that the farmers need to provide
storehouses whereby their apples can be
held for such periods of time as is desir-
able; and if a large per cent. of the
apples were marketed by one association
in such a way as to produce a glut.

One of the most important lines of
work of the Department is that of farm-
er's institutes. This has been a very im-
portant feature ever since the Depart-
ment was established. Experts are sent
out to talk to any agricultural sub-
ject desired, and to any part of the State,
as far as possible, and several hundred
addresses will be made this year upon
various agricultural topics.

Another very important branch is in
the hands of the field agent for the gypsy
moth work. The gypsy moth is one of
the greatest menaces to the state that has
ever been known. Although introduced
into Maine only a few years ago, it has
now spread over the larger portion of
the southern section of the State, as far
north and east as Orono and in Oxford
county to the town of Oxford, and has
been found in 160 different towns. Dur-
ing the spring months, just closed more
than 500,000 eggs were destroyed
on the trees in York county alone. The
fifty men now in the employment of the
Department in this work are at present
engaged in spraying. The Department
has established at Portland this year a
parasite laboratory and parasites of the
gypsy-moth are being bred and will
soon be distributed among the various
towns of the State. After this work is
completed, parasites for the gypsy moth
will be bred.

Another line of work of the Depart-
ment which is quite important is that
known as weights and measures, a work
which formerly devolved upon the State
Treasurer but was engaged to this De-
partment two years ago. It is important,
because the people who are purchasing any
commodity should receive full weight or
measure. Towns are required to appoint
sealers of weights and measures and to
have standards which must be approved
by the Department at least once in five
years. It is the duty of town sealers to
test all weights and measures within
their jurisdiction each year.

The last legislature made an approp-
riation to secure information in regard
to marketing farm products and purchas-
ing farm supplies. While this law does
not go into operation until the middle of
July, work has already begun in an educa-
tional way. Many institutions have
been held and some organizations already
made in this line of work, which is one
of the most important at the present
time.

There are various other lines of work
in which the department is engaged, but
in this brief article it is impossible to
speak of them.—[Maine Rural Life.

Service, illustrated by narration of betterment of municipal and social conditions wrought by the influence of local granges in Massachusetts towns, by the introduction of pure water where it was much needed, also the giving of the grange to the public, the grange as a factor of improved educational conditions, and for loyalty to the flag.

Hon. Bertrand G. McIntire, chief of the State Taxation Commission, responded to an invitation of the worthy lecturer in an address of half an hour, in which he discussed the principles and methods of publication of real and personal estate in a very intelligible and pleasing manner. It is not too much to say that Mr. McIntire is an ideal lecturer, and is capable of making a high mark in the field of scientific investigation of the necessity of improved public taxation.

Brother Granville Fernald revived the fading recollections of the members of the Pomona Grange by timely reference to its action at the annual meeting in December last whereby a radical resolution was adopted unanimously committing its members to the united support of the campaign for the passage of a legislative act authorizing the submission of the question of Woman Suffrage to the voters of the State.

Also to the fact of the passage of a resolution submitted by the State Grange by the Maine Woman Suffrage association at its last annual session in Portland by which the State Grange became an ally and cooperator with the W. S. A. of Maine for the success of the movement for the enfranchisement of the women of Maine.
